## CHINESE NEW YEAR 2024

In welcoming the year of the Dragon, we amped up the excitement with our vibrant CNY signature event! We joyfully shared the festive spirit in our neighbourhood by distributing delightful mandarin oranges and personalized CNY cards. What made it truly special was the incredible collaboration with the enthusiastic staff and students of APSN KATONG, who added their own touch of celebration to the mix. Together, we turned CNY into A memorable one AT BV!

## BV LEVEL CAMPS 2024

The Level Camp stands as a pivotal element in our school journey, dedicated to nurturing students into lifelong learners and inspiring leaders who illuminate the path forward. In the year 2024, all four Level Camps unfolded between February 5th to 7th. While the primary hub for activities was within the school premises, students also ventured out to outdoor locales to partake in engaging and enjoyable outdoor pursuits.

## TOTAL DEFENCE AND CYBERWELLNESS DAY 2024

Bedok View Secondary School observed Total Defence Day through a range of activities and lessons. The week commenced with an Emergency Exercise, simulating a lockdown followed by a secure evacuation to the assembly point. Both staff and students underwent a scenario involving a one-hour power outage. Teachers facilitated lesson packages and reflections thereafter to allow our students to share their learning. These exercises along with the cyberwellness programme played a pivotal role in emphasizing the significance of staying vigilant and well-prepared to respond effectively in emergency situations.

## WELCOME TEA WITH PSG

In term one, we hosted a Welcome Tea session with members of the Parent Support Group, bringing together parents to foster a deeper connection with the school. This engaging platform not only allowed us to appreciate the existing strong ties but also served as a dynamic space for the school and parents to network, connect, and fortify the essential bond between family and the school community.

## SCHOOL VISIT-NANYANG JAKARTA INTERNATIONAL SCHOOL

We were honoured to host a delegation of staff and students from the Nanyang-Jakarta International School. Their visit not only fostered a strong sense of camaraderie among students from our neighbouring country but also provided a unique opportunity for cross-cultural interaction. As our esteemed guests entered the classrooms, they actively engaged with our students, immersing themselves in the vibrant learning environment at Bedok View. This exchange not only enriched the learners' experiences but also cultivated a deep sense of collegiality and friendship among the dedicated staff members of both institutions.

## EAST COAST COMMUNITY DAY

BV celebrated East Coast Community Day with our neighbours and friends from community partners in the east. Our students and staff made our green mark at the new badminton hall at Singapore EXPO through a record-setting activity and also the planting of trees. It was a very memorable way to celebrate the community bonds that we share.

## RED DOT AMBASSADORS AT RIVER HONGBAO 2024

As part of our school's dedication to introducing our international students to local cultures and traditions, 30 of our Secondary One Red Dot Ambassadors and their international peers participated in a guided tour and exhibition at River Hongbao 2024 on February 14th. They were captivated by the impressive lantern displays, gained deeper insights into Chinese cultures through the guided tour, and enjoyed various hands-on experiences. This was also an opportunity for our Red Dot Ambassadors to share our pride as Singaporeans and help our new friends assimilate as they commence their journey together.
